Description

Self-priming and gas-conveying side channel pumps impress with their excellent suction characteristics, operating reliably even at high suction heads or under demanding conditions. Equipped with a robust mechanical seal, they ensure reliable operation.

Areas of use

> Water supply: Our pumps ensure a reliable and efficient water supply. > Equipment construction: They are ideal for use in equipment construction and guarantee precise and reliable performance. > Irrigation: Perfectly suited for efficient irrigation systems

Technical data

Hydraulic power

Flow rate	20 m³/h
Förderhöhe	261 mWS

Motor & drive

Drehzahl	1,450 min-1
Degree of protection	IP 55

Electrics

Input voltage	400 V
Frequency	50 Hz

Energy efficiency

Energy efficiency class	IE3

Connections & piping

Connection, inlet / suction side	DN 50
Connection, discharge side	DN 50

Operating conditions & water

Umgebungstemperatur	40 ° C

Dimensions & logistics

Customs tariff number	84137045
