BADU JET WAVE

BADU JET Wave mit weißer LED Fertigmontagesatz

Article number 2323200000
Product page https://www.speck-pumps.com/en/p/badu-jet-wave-mit-weisser-led-fertigmontagesatz-2323200000

Description

Powerful in-ground system with LED lighting. Everything a perfect pool needs.

Areas of use

For wall installation in all pool designs, as an attraction, for fitness, as a wave or bubble bath, or for underwater massage following medical advice. Swimming without turning is also possible in small pools.

Version

A powerful BADU pump, connected via a suction and pressure line, draws water into the pool through a flush-mounted plastic installation and jet housing. A powerful jet is then returned to the pool via an adjustable nozzle that can be swiveled 60° in all directions. Numerous openings around the jet housing ensure extremely low intake flow. A visually appealing alternative to the BADUJET Vogue, the BADUJET Wave impresses with its attractive cover panel made of high-quality plastic. A built-in LED light creates a cozy ambiance, which, like the pneumatic on/off switch and the controls for the tingling air bubble bath, can be operated from the pool.

Material short text

BJ Wave,FMS,3~,LED_W

Technical data

Hydraulic power

Flow rate	58 m³/h

Motor & drive

Insulation class	F

Electrics

Power input P_1 (max.)	3.18 kW
Power output P_2 (max.)	2.6 kW
Frequency	50 Hz

General / Product features

Product range	BADU Allround

Connections & piping

Recommended suction line diameter	63 mm
Recommended discharge line diameter	63 mm

Nozzles & counter-current system

Number of nozzles	1 St
Nozzle swivels in all directions	60 °
Outlet pressure at the nozzle	1.1 bar
Outlet velocity, centred 2 m in front of the nozzle	1.2 m/s
Massage pressure max.	1.6 bar

Operating conditions & water

Umgebungstemperatur	40 ° C

Dimensions & logistics

Customs tariff number	84798997
